Meeting Date Requested: Requested By:

Desired Action of City Council: Authorization Approval Resolution
 Ordinance Citizen Request Discussion

Amount Budgeted in current fiscal year for this item (if applicable):

Agenda Item:

Explanation/Background of Agenda Item Requested:

The City of Mitchell participated in the Davison County Hazard Mitigation Plan prepared by the Planning and Deveopment District III. The 2021 plan is an update to the previous plan which was approved by FEMA in 2016. The plan is updated every five years. The purpose of the plan is to prevent or reduce losses to people and property that may result from future hazard events in Davison County. The plan identifies and analyzes the hazards that the county is susceptible to, and proposes a mitigation strategy to minimize future damage that be be caused by those hazards. The report identifies nine action items for the City of Mitchell which includes projects to minimize effects of flooding, constructing emergency storm shelters and installing additional warning sirens.

The attached resolution will adopt the plan and show the City's continued support for the plan and that the City will take action to ensure that the plan is implemented successfully. Staff recommends City Council approval of the resolution.
