Explanation/Background of Agenda Item Requested:

An easement agreement is necessary for the installation of underground electrical improvements by NorthWestern Corporation. The line is replacing an overhead electrical line which has historically experienced outages. The line is the main feed for the runway lights. The easement will be located along a small portion of Hanger Road and the old terminal building. Mike Scherschligt stated that no improvements are planned to be installed in the vicinity of the new line and recommends approval. Please see attached easement agreement and surveyor's affidavit.

Staff recommends City Council approval of the easement agreement.
