Explanation/Background of Agenda Item Requested:

This proposed TIF district relates to property in the Woods Circle area. Groeneweg Construction LLC would be the primary developer for this TIF.

After receiving initial application materials, the TIF Review Team met to determine if the project plan included all the information required by law and ordinance. It appears all requirements are met.

The planning commission met and held a hearing on the matter on March 28, 2022. The commission voted in favor of setting the boundaries described in the project plan and recommended adoption of the project plan.

This TIF would function the same as the last few City TIFs where the City is not putting any city money in but instead passes on the increment to the developer as it generates. This also means that any risk that the TIF does not generate the anticipated funds falls on the recipient, not the City, and that the TIF requested dollars will not count as constitutional debt against the City.

Project funds are classified as grants which the developer may use to offset eligible project costs as described in the Project Plan. Planning Commission Minutes are included for council reference. All required findings and statements to create and approve of TIF #27 are contained within the Resolution.
