Explanation/Background of Agenda Item Requested:

The City has requested a proposal from HR Green to design new signal lights with street lights at the intersections of 1st Avenue and Main Street and 7th Avenue and Main Street. The signal lights were installed in the early 1990's. The signal lights are frequently hit by larger turning vehicles. HR Green was the design engineer for the Minnesota Street and Bypass signal lights in Mitchell.

Please see the attached map for signal light locations.

Staff recommends City Council approval of the attached proposal from HR Green in the amount of \$66,509.60 for civil engineering services described therein. This is for approval of design services only at this time.
