Agenda Item:

Explanation/Background of Agenda Item Requested:

I was asked to prepare an ordinance that would change our animal at large ordinance to allow the use of remote pet collars. While developing that ordinance, we were also able to incorporate the use of verbal commands by providing further clarity on what it means to keep an animal under the complete control of the owner.

I think it is best to let the language speak for itself on the definition of complete control. The one part I will point out is that it has language that would tie the animal at large ordinance together with the new proposed changes regarding restricted and vicious animals.
