Agenda Item:

Explanation/Background of Agenda Item Requested:

The Army Corp of Engineers has required a Level III Cultural Resource Survey be completed as part of their permitting process for the Kelley Wetlands project. The survey will include a records search for surveys or cultural resources previously identified, examine historic atlas and plat maps, conduct a pedestrian survey and a subsurface evaluation to evaluate the likelihood of buried cultural resources. The findings will be prepared in a final written report suitable for submission to the South Dakota State Historic Preservation Office (SHPO) with a recommendation of the projects effect on the area.

Kogel Archaeological Consulting Services has provided a proposal at a fee not to exceed \$6,800. The survey will be completed by January 28, 2023.

City staff recommends approval.
