Agenda Item:

Explanation/Background of Agenda Item Requested:

The indoor pool began a repair project in July. During that process, previously unknown issues were identified which required repairs beyond what was initially expected. Schemmer (formerly MSH at the time of pool design and construction) was asked to consult during the process to ensure the pool was repaired in a manner consistent with the original design intention and specifications to the greatest extent feasible.

This agreement formalizes some of the work that Schemmer has already completed and will continue to complete in an effort to have repairs begin as soon as possible.

At this time, a date for reopening has not yet been established.
