Agenda Item:

District A Boundaries

Explanation/Background of Agenda Item Requested:

The purpose of updating the Ordinance is to accurately describe and illustrate the District A snow removal areas that are currently being accomplished and have been accomplished in the past as accepted current practice. Updating the current map on the website and Ordinance will accurately describe current practices for snow removal in District A.

The areas show in red on the map are areas being added in order to illustrate to the updated Ordinance No. O2018-16.

The only area being deleted from the previous Ordinance is the one block of East Hanson between South Kimball and South Langdon. This location was an area on the south side of the previous Coca-Cola Bottling Plant, which is no longer in existence, and the City has not included snow removal efforts in that location as part of District A.
