Discussion

Amount Budgeted in current fiscal year for this item (if applicable):

602-43340-42225 Water Distribution (\$88,000) Professional Service Design
101-43150-42200 Storm Drainage (\$30,000) Professional Fees/Services

Agenda Item:

Approval of Proposed Agreement with SPN for Southwest Area Preliminary Master Utility and Drainage Plan - Approximately 475 acres, Mitchell, South Dakota City Project #2019-52 - Agreement #A2019-40

Explanation/Background of Agenda Item Requested:

The City requires preliminary planning efforts on utilities and stormwater management for any possible future expansion and development southwest of the City, in and around the W. Havens and S. Ohlman intersection.

There have been previous surveys and engineering work in cooperation with Davison County regarding existing and historical drainage close to this area. In order to maintain the historical drainage and plan for future development, Staff recommends that design services be procured.

Staff recommends City Council approval of the attached proposal from SPN in the amount of \$16,250 for civil engineering services described therein.
