

### What we learned from the Community Visioning Process:

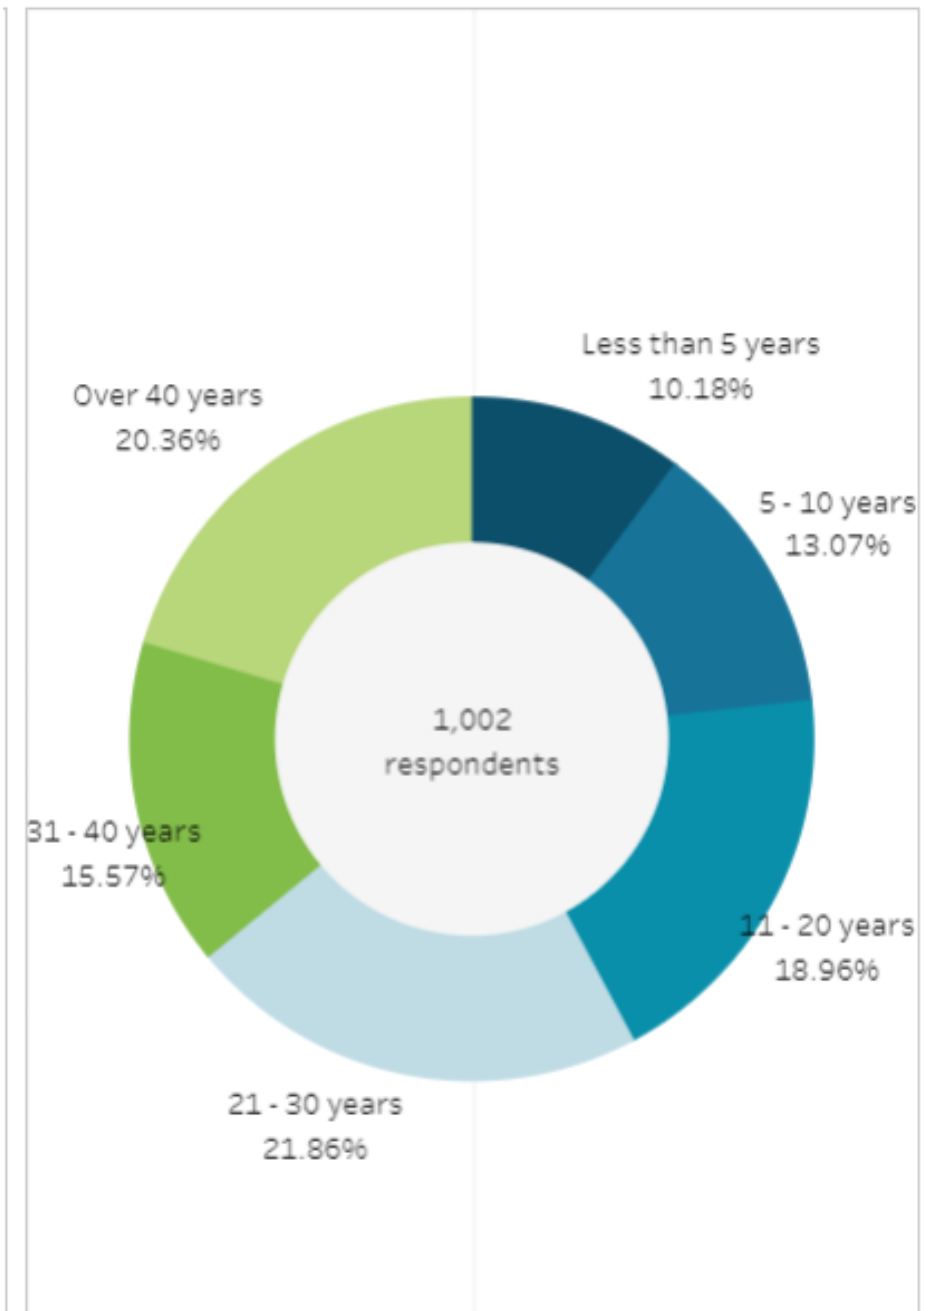

- Over 2,000 significant inputs (survey responses, workshops, and focus groups)
- Over 80% of respondents considered having a shared vision important
- Participants indicated in the strategic planning process that it is important for the community to move forward in a cohesive manner towards the “future shared vision” (regionally focused and pursuing emerging opportunities)
- Approximately 65% of the community survey respondents (1,002 total surveys) were between 20 and 50 years old. (41-50 years old 23%, 31-40 years old 26%, 20-30 years old was 16%- which was considered high for a visioning process compared to other communities.

Respondent Age

- The community survey respondents included individuals who had lived in the area from 40+ years to less than 5 years.

## Years Living in Mitchell Area

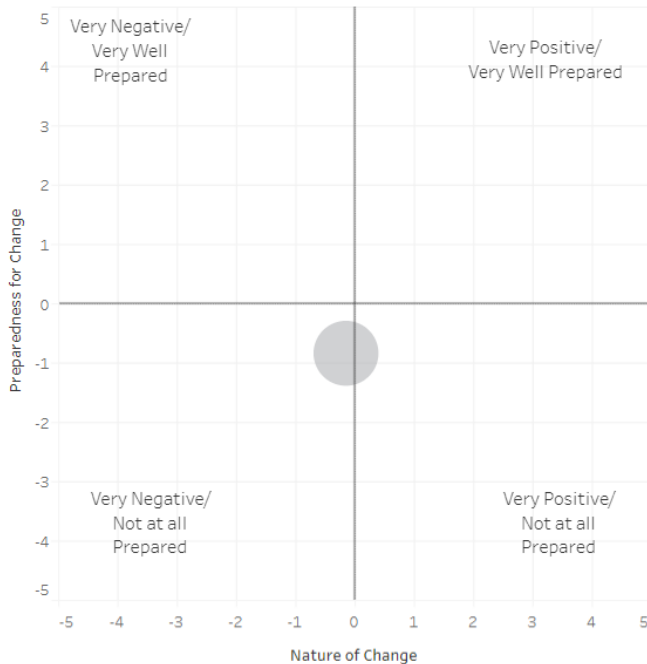

As part of the full engagement process (over 2,000 participants), participants were asked to rate a number of different factors that could affect the future growth & viability of the Mitchell Community. One of

*Outside expectations*

those was “housing options & types of housing available”. When you look at this question, the consensus of the 2,000 participants was that the Mitchell community viewed our current status as negative, and that we are not prepared for changes needed in this area.

Key Factors - Average Data

X-axis - Nature of change (Scale: -5 = Very negative; + 5 = Very positive)  
 Y-axis - Preparedness for change (Scale: -5 = Not at all prepared; + 5 = Very well prepared)  
 Size of circle - Importance in the future (Scale: 1 = Not at all important; 10 = Critically important)

(Multiple values)

- (All)
- Under 20 years
- 20 - 30 years
- 31 - 40 years
- 41 - 50 years
- 51 - 60 years
- 61 - 70 years
- 71 - 80 years
- Older than 80 years

Housing options and types of housing available

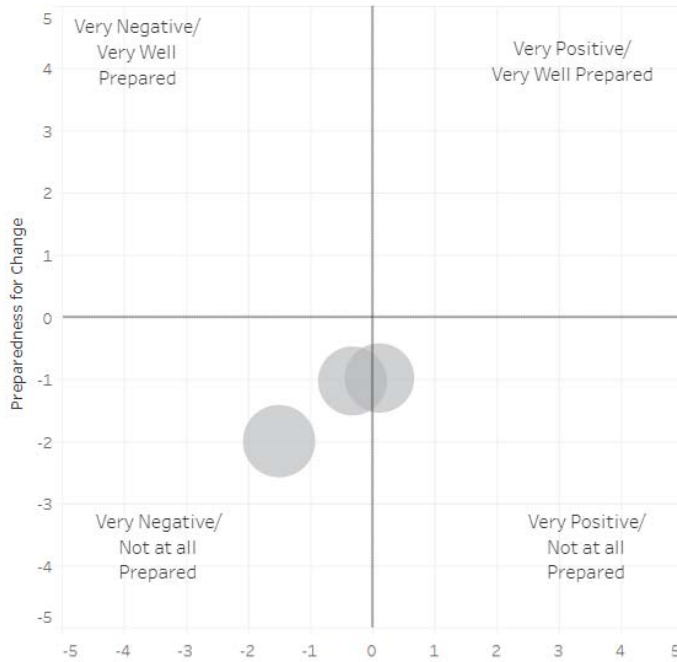

Broken down to age groups below 40 years old, you can see that under 20 (bottom left) view this the most negatively, followed by 31-40 year old & 20-30 years old. This tells us that younger generations view this

more negative than other generations.

### Key Factors - Cohort Data

X-axis - Nature of change (Scale: -5 = Very negative; + 5 = Very positive)  
 Y-axis - Preparedness for change (Scale: -5 = Not at all prepared; + 5 = Very well prepared)  
 Size of circle - Importance in the future (Scale: 1 = Not at all important; 10 = Critically important)

Age Range

(Multiple values)

- (All)
- Under 20 years
- 20 - 30 years
- 31 - 40 years
- 41 - 50 years
- 51 - 60 years
- 61 - 70 years
- 71 - 80 years
- Older than 80 years

Housing options and types of housing available

Key Factor

- Housing options and types of housing available

Importance in the Future

- 1.0000
- 2.0000
- 4.0000
- 6.0000
- 8.0000
- 10.0000

The participants were also asked how important certain factors will be to Mitchell in 2030. As you can see from the chart below, 75.23% of the respondents said that Housing options & types of housing available would be highly important.
