Explanation/Background of Agenda Item Requested:

Contract to add additional storage for Axon Body Camera System. This is an addition to our current Axon contract, which will allow for the addition of 3000GB of additional storage on the AXON secure cloud server system. In year one,2020, the pro-rated cost will be \$600.00. In years two through five the cost will be \$1440.00 a year. This addition does not affect the term of our current AXON contract it is just the cost of the additional storage. Our current storage that is included in our contract is 2000GB. Our current stored video data consumes 3300GB of the data storage. We have consulted with the City IT department and they feel that this is the most cost effective and secure solution for the AXON video data. AXON Quote included.
